Summary

Game and graphics-oriented programmer with professional Unity experience shipping AR mobile games in a small studio environment. Strong interest in computer graphics, gameplay systems, UI, and interactive media. Comfortable working across Unity, front-end web development, and real-time visual experimentation.

EXPERIENCE

Game Programmer, *ONTOP Studios*

03/2023 – 09/2025

Developed and shipped AR mobile games in a small 4–5 person studio.

- Contributed to the development of a shipped title alongside a senior programmer.
- Later became the sole programmer on studio projects, owning gameplay implementation and feature delivery end to end.
- Worked across prototypes and production releases in a fast-moving small-team environment.

FRONT-END DEVELOPER, *BLISS APPLICATIONS*

09/2019 – 05/2021

Part-time while taking my master's degree.

FRONT-END DEVELOPER, *BLISS APPLICATIONS*

07/2019 – 09/2019

Summer Internship after bachelor's degree.
